1" MINI RETRACTABLE RATCHETING TIE-DOWN

Just Hook, Ratchet, and GO!

Never look for lost tie-downs again. The mini transom retractable ratcheting tie-down boasts six feet of one inch, hardy polyester webbing with a vinyl-coated S-hook. Permanently mount with one bolt on a trailer, toy hauler, ladder rack, lift, truck, and in various other applications.

Length:	up to 72"
Break Strength:	1,400 lbs. each
Safe Working Load:	466 lbs. each

CARGOBUCKLE PROFESSIONAL GRADE TIE-DOWN

The CargoBuckle Professional Grade retractable ratchet tie-down system takes the hassle out of securing gear.

Longer, heavier, web enables you to tie down more equipment in more applications, conveniently and securely.

Length:	up to 72"
Break Strength:	3,500 lbs. each
Safe Working Load:	1,167 lbs. each

PK-28B • ROOF RACK BRACKET KIT

Enclosed Trailer Roof Rack Bracket Kit

- Create your own ladder rack with this specially designed bracket kit.
- Sturdy aluminum brackets mount to the roof of your enclosed trailer.
- Standard 2x4 lumber fits into the brackets to act as crossbars for a customized ladder rack for any width trailer (4' to 8 1/2' wide).
- 1 Year warranty.

Specs :

- Overall bracket height: 22"
- Height from bottom of bracket to top of crossbeam: 19"

Features:

- Create your own ladder rack with this specially designed bracket kit.
- Customize for any width trailer (4' to 8-1/2'wide), letting you create your own roof-mounted ladder rack.
- Designed to mount to the rain gutters of almost any enclosed trailer.
- 4 Aluminum brackets mount to each corner of your trailer's roof.
- 2" x 4" Lumber (not included) easily fits into brackets to create crossbars.

RA-28S • Ladder Rack Stops Fits RA-Fitz-All Ladder Rack

- The RA-28S will prevent your ladders from sliding forward or backward while on the Fitz-All ladder rack, while it is on your enclosed trailer.
- Fits the RA-28 and will fit other stock aluminum ladder racks with a 1" by 2" rectangle cross member.
- Very easy to install with just one bolt.

6650692 • RA-28 • FITZ-ALL-LADDER RACKS

- Fitz-All ladder racks do exactly that, they fit all enclosed trailer brands, flat or round roofs and sizes (4' to 8.5' and everything in between).
- Made from heavy duty extruded aluminum with our exclusive male/female slide design.
- 4 stainless steel screws per side mount for extra strength.
- Quick and easy to assemble in about 5 minutes.

PK-28WL-BMH • SIDE RAIL OPEN LADDER RACK

- Create your own ladder rack with this specially designed bracket kit.
- Open Trailer Side Wall Ladder Rack is designed to transport a ladder on the side rail of an open trailer. Rack makes ladders easier to access, making it ideal for your most frequently used ladder.
- Can also be used to transport long material such as: pipe, lumber, conduit, gutter, etc.
- Very easy and quick to install with simple hand tools and a drill.
- Hardware is included. Ladder hooks are adjustable so the hooks can be set up for operator comfort and ease of use. The adjustment feature can also help with odd shaped ladders like "a frame" ladders.
- Ladders can be staggered for a more level profile. Ladder hooks

also have a welded-in gusset which provides extra strength and a place to thread a lock and chain to deter ladder theft (ladder, lock and chain are not included). Strap down bungees are included along with all mounting hardware.

- This product will increase productivity and ease of operation while potentially reducing the risk of injury.

PK-28WL-BM • SIDE WALL ENCLOSED LADDER RACK

- Create your own ladder rack with this specially designed bracket kit.
- This product is designed to transport a ladder on the exterior side of an enclosed trailer, cube van or box van. Roof mounted ladder racks are great but depending on trailer height

and frequency of ladder use, they can be awkward. That is where the PK-28WL comes in. This rack mounts to the exterior side wall of an enclosed trailer. Since this rack is on the side of the trailer as opposed to the roof, it is far easier to access, making it ideal for your most frequently used ladder.

- This rack can also be used to transport long material such as: pipe, lumber, conduit, gutter, etc.
- Very easy and quick to install with simple hand tools and a drill. Hardware is included. Ladder hooks are adjustable so the hooks can be set up for operator comfort and ease of use. The adjustment feature can also help with odd shaped ladders like "A Frame" ladders.
- Ladders can be staggered for a more level profile. The ladder hooks also have a welded-in gusset which provides extra strength and a place to thread a lock and chain to deter ladder theft (ladder, lock and chain are not included). Strap down bungees are included along with all mounting hardware.
- This product will increase productivity and ease of operation while potentially reducing the risk of injury.

**7180120 • RA-27C
DOUBLE BARREL RAMPGATE • CHAIN-DRIVEN LIFT ASSIST**

- Unique 2-spring design gives extra power when needed automatically, and provides a smooth jerk free movement all the way down and all the way up.
- Unit measures 54" long.
- Shortest unit on the market taking up the least amount of rail space, which leaves room for other needed racks.
- Heavy duty chrome sprocket chain has a LIFETIME warranty – an industry exclusive.

See other RACK'EM Products on Pages H-5 through H-6.
